**6/10/2009**

CHATSWORTH, CA–June 10, 2009–Renau Electronic Laboratories is proud to announce that it has expanded into new markets with the launch of Renau Europe, the first authorized distributor for Renau products in Europe. Mr. Tomasz Renau has been appointed the Director of European Operations and will be overseeing the distribution of Renau's innovative product lines in this exciting market.

**Tomasz Renau, Director of European Operations**

To further support European distribution, Renau has also launched the Renau Europe website, [www.renau.eu](http://www.renau.eu), in Polish, German, and English versions.

#### About Renau

Renau Electronic Laboratories designs and manufactures custom electronic microprocessor controllers and is an ISO 9001:2000 Certified Company. As a commercial manufacturer, Renau holds numerous exclusive worldwide rights and patents. Our products have a wide-range of applications, including industrial machines and the food-service, water purification, aerospace, and defense industries. We can custom-tailor a product to match your specific needs and applications. At Renau, we do more than design. We invent!
